## ❦ "And why should ye not fight in the cause of Allah and of those who are ill-treated?" ❦

Ignorant he who thinks that all those who thundered and frothed after the incident of the killing of worshipers in the mosques of New Zealand want a bloody response against the combatant Crusaders. More of those who raged in defense for the religion and its people, when seeing spiteful Crusader disgraces Muslim mosques and kills their people, would not do more than practicing their hobbit of crying and slapping their faces over the misfortunes of Muslims, and increase their complaints and moans over the mushrikin's unjust.

Even worst, are those who fill their time counting statements of criticism, condemnation and rejection, and analyzing the implications of these trivial statements to classify people based on the terms they used.

The worst of all is he who cares only about describing this Crusader attack as "terrorism," only to demand from the mushrikin to stop condemning and blaming him for the mujahidin's attacks on mushrikin's churches and temples during practicing their kufr rituals.

Some of those who are ashamed of condemning this, fear that the Khilafah soldiers would initiate an attack on the combatant Christians these days more than anything else. Those who put themselves as Muslim's leaders and promote their organizations and parties as protector of them, their reactions to the New Zealand attack did not differ from the responses of the tawaghit and mushrikin all around the world; by declaring denouncement and condemning and demanding the "United Nations" and the Crusader countries to protect Muslims. They fear that their followers would abandon them once their hearts are healed to see another blessed attack by the Khilafah soldiers in the homeland of the combatant Crusaders.

Many of those who settled in mushrikin homeland, satisfied with their authority. They unfortunately seek to reassure the governments of these countries, through their doings sometimes and their words in other times to gain their satisfaction and in fear of the impact on their lives or to gain worldly interests. However, and despite the Jahillyah they live in, we often witness someone amongst them who avenges Muslims by shedding kuffar's blood.

Ignorant he who thinks that the Islamic State waits for an attack like this on Muslim's mosques to incite its soldiers to kill mushrikin and inflect in them. Its jihad and fight against mushrikin is a duty even if they were weak and can't harm Muslims, as long as they lack faith and covenant. On top of that they severely killing and torturing Muslims. More sins

and uglier crimes require more fighting against them until they repent from their kufr, promise Muslims to submit to their ruling or stop their harm.

The war waged by Crusader nations against Muslims did not start when one of their citizens attacked the mosques last Friday, rather, it is ongoing, hasn't stopped and will not stop. The crimes of the Crusader military coalition, which New Zealand and Australia are taking part of, against Muslims in Iraq, Sham, Khurasan and East Asia is an example.

They have destroyed entire cities, wiped out their inhabitants, destroyed hundreds of mosques and prevented the mentioning of Allah's name in them, and they are constantly on war against Islam and Muslims until their last will fight under the banner of Dajjal in the Judgment Day.

Fighting to stop the aggression of mushrikin against Muslims in Muslims' lands and outside them and seeking to heal the chests of Muslims from those who unjust them are 2 shari'h goals among the goals of jihad for the sake of Allah, the mujahidin are keen to achieve at all times. Allah (SAW) says: "Then fight in Allah's cause - Thou art held responsible only for thyself - and rouse the believers. It may be that Allah will restrain the fury of the Unbelievers; for Allah is the strongest in might and in punishment." [An-Nisa 84]. And says: "Fight them, and Allah will punish them by your hands, cover them with shame, help you (to victory) over them, and heal the breasts of Believers." [At-Tawbah 14]

Deterring Crusader armies from harming Muslims in Muslims' lands is among the goals of the mujahidin's operations in the Crusader countries. Likewise, forcing their governments to deter criminals among their citizens from harming Muslims who live there, attacking their mosques or destroying their properties is among these goals. Achieving that will force them to realize that once they open the door for more similar aggressions, more individual Muslims will feel like they have to fulfill their duty toward their religion, themselves and their brethren. They will conduct jihad against mushrikin in their homeland, kill and harm them and seize their fortunes as ghanimah. Allah (SAW) says: "And why should ye not fight in the cause of Allah and of those who, being weak, are ill-treated (and oppressed)?- Men, women, and children, whose cry is: "Our Lord! Rescue us from this town, whose people are oppressors; and raise for us from thee one who will protect; and raise for us from thee one who will help!" [An-Nisa 75]
